

# Twominds Festival 2026 Poster

*Plain text document*

*Document authored: 18 November 2025*

---

## Poster visual description:

The poster shows a bright daytime scene of the festival on a grey background. At the top, large neon-yellow text says “Twominds Festival”.

Below the text is a small island-like scene. Tall green trees fill the background. In front of them is a sandy beach with a driftwood stage. To one side, there is a yellow beach umbrella and towels. The scene feels light, warm and relaxed, like a summer day.

In the animated version of the poster, this island slowly turns to reveal the other side at night. Here, tall trees are lit with purple and pink light. A glowing stage sits in the centre, with string lights, walkways and small campsite details around it. A disco ball above the stage sends thin, star-like beams into the sky. This side feels atmospheric and dreamy, showing the festival at night.

Beneath the visuals, the poster lists event details and artist line-ups in clear tiers:
